## Education

**University of Agriculture Faisalabad (UAF)** 2023 – 2027 (Expected)
*Bachelor of Science in Software Engineering (CGPA: 3.40 / 4.00)* *Faisalabad, Pakistan*

- **Relevant Coursework:** Data Structures & Algorithms, Database Systems, Software Engineering, Object-Oriented Programming, Operating Systems, Computer Networks, Artificial Intelligence

**Intermediate in Computer Science (ICS)** 2021 – 2023
*FSc (ICS) – 916 / 1100 Marks* *Faisalabad, Pakistan*

**Matriculation (Science)** 2019 – 2021
*1076 / 1100 Marks* *Faisalabad, Pakistan*

## Experience

**Backend Developer (Freelance & Personal Projects)** 2024 – Present
*Django, FastAPI* *Faisalabad, Pakistan*

- Built scalable REST and GraphQL APIs with Django/FastAPI, implementing JWT auth, CRUD operations, and optimized database design.
- Developed AI-powered automation workflows using OpenAI SDK and n8n with third-party API integrations.
- Improved backend performance through query optimization, caching strategies, and secure architecture (RBAC, validation).

**System Design (Applied Learning)** 2024 – Present
*Scalable Systems* *Remote*

- Applied system design concepts including scalability, caching, and load handling for applications targeting high concurrency.
- Explored event-driven architecture and event sourcing for building reliable backend systems.

**Prompt Engineering (AI Systems)** 2024 – Present
*LLMs, OpenAI SDK* *Remote*

- Designed and optimized prompts and multi-step workflows for LLM applications, improving response accuracy and reliability.

**Home Tutor** 2023 – Present
*Computer Science & Mathematics* *Faisalabad, Pakistan*

- Delivered one-on-one instruction, improving students' conceptual understanding and academic performance.

## Projects

**School Management System (SaaS)** | *Django, Python, SQLite, RBAC Architecture*

- Built a multi-branch SaaS platform with 7 role-based dashboards and structured RBAC.
- Designed financial analytics dashboard to track income, expenses, and branch-level performance.
- Architected modular Django apps for scalability and real-world institutional workflows.

**Datavo – AI Database Schema Architect** | *FastAPI, React, OpenAI SDK*

- Developed an AI system to generate structured database schemas from user requirements.
- Implemented efficient prompt architecture reducing token usage and hallucination risk.
- Produced structured JSON outputs with entities, relationships, and constraints.

**PathWeaver – AI Job Automation System** | *Django, React, Celery, Redis, PostgreSQL*

- Built an end-to-end job automation system that scrapes, filters, and analyzes job listings using AI.
- Designed asynchronous pipeline using Celery, Redis, and scheduled tasks for scalable background processing.
- Implemented resume parsing, job matching, and automated resume optimization with scoring logic.
- Automated notifications and workflows, enabling non-blocking processing and system orchestration.

**BusinessPulse – AI Decision Support System** | *FastAPI, React, Data Analysis*

- Built a decision support system to analyze product performance and customer feedback.
- Implemented scenario-based analysis and data ingestion via Excel/JSON pipelines.
- Focused on pattern detection and actionable insights for business decision-making.

## Technical Skills

**Languages**: Python, SQL, JavaScript (Basic)
**Backend Development**: Django, FastAPI, REST and GraphQL APIs, JWT Authentication, RBAC, Celery, Redis
**System Design**: Scalable Architecture, Asynchronous Processing, Caching, Event-Driven Systems (Basics)
**AI & Prompt Engineering**: OpenAI SDK, Prompt Engineering, Agentic AI Systems, Workflow Automation (n8n)
**Databases**: PostgreSQL, MySQL, SQLite
**Tools & Platforms**: Git, GitHub, Postman, VS Code, Antigravity and Cursor
**Additional**: Project Management (Agile Basics), Digital Marketing (Facebook Ads, SEO, Content Strategy)

## Certifications

- Google Prompting Essentials (Google) | Credential ID: 8N1DAWL45DA9
- Foundations of Project Management (Google) | Credential ID: LVQTVXN23NKM
- CS50 (Harvard University) | Credential ID: 3ebd4ffe-1546-484c-857e-a1ae9870172e
- Speed Up Data Analysis and Presentation Building (Google) | Credential ID: BO6IMQKMCE9I
